ACCOMMODATION

Standards for Hotels & Motels

STANDARDS FOR HOTEL/MOTEL PARTICIPANTS

The standards for Canadian Star Quality Accommodation contained in this document have been specifically created for hotel and motel establishments. In the future, we will be developing Star Quality standards specific to other types of accommodation properties.

Properties participating in Canadian Star Quality Accommodation are rated by third-party, professional rating advisors. The rating advisors follow a prescribed protocol and inspect several different components to determine the level and quality of services, facilities and amenities. The rating process encompasses public areas, guest bedrooms and bathrooms, exterior and interior of the property, food & beverage services and additional services. All elements will be scored and a final star rating assigned based on the minimum criteria level achieved and the average quality score. At a minimum, properties must meet strict requirements for safety, courtesy, cleanliness, comfort and state-of-repair. Higher star ratings indicate an increased number and quality of services and amenities provided by the property.

The “plus” designation indicates consistent, superior quality, amenities and services while maintaining the criteria for that particular star level. To achieve the “plus” designation, a property will receive a base line star level from the criteria. Then the average quality score is calculated for each of the three major sections (public areas, guest rooms and bathrooms). If all three average quality scores are above .5 for that star level, the property will receive the “plus” designation. If any of the three average quality scores is below .5 for that star level, the property will not receive the “plus” designation.

Information about additional elements and amenities, such as air conditioning, meeting / convention facilities, recreation facilities, etc. will be collected and included on the property listing on the consumer website.

The following summary of ratings do not include all the detailed requirements and are subject to modification. For a complete list of criteria information contact: info@starqualityhotels.ca or call 1.888.612.2772.

MINIMUM STANDARDS

To participate in Canadian Star Quality Accommodation, a property must be “ratable”, meaning the establishment meets the minimum standards for a Star Quality rating. Minimum standard requirements for safety, courtesy, cleanliness, comfort and state of repair must be maintained at all times.

AVAILABILITY:

- At least 25% of the units or rooms are to be available to visitors as overnight accommodations from June to September inclusive.

COURTESY:

- Courtesy is a minimum requirement in the Star Quality program. It is as important as cleanliness, comfort and state of repair. Management and staff shall present a good appearance to the guest, operate on an ethical businesslike basis and provide conscientious attention to guest service. Rude, indifferent or ineffective service is unacceptable and can be cause for losing Star Quality rating.
- Failure to respond appropriately to guest complaints may also result in loss of Star Quality rating.

EXTERIOR:

- Finished parking on site or adjacent with adequate night lighting.
- Entrances, parking areas and walkways shall be well-illuminated and free from hazards and obstructions.
- Establishments shall present a well-maintained exterior appearance in keeping with their nature and location.
- Roofs, walls, windows and doors shall be maintained in water, wind and weatherproof conditions.
- Outside stairs and landings shall be free of defects.
- Marquis signage, signs & advertising on the property shall be well maintained, legible & accurate.
- Grounds, landscaping, grass, foliage and gardens shall be well kept and regularly maintained to present a neat and tidy appearance.
- Garbage disposal areas, walkways and parking areas shall be uncluttered and free from litter and other debris.

INTERIOR:

- The lobby and all other public areas shall be clean, well-maintained and present a neat and pleasant appearance.
- Reception and registration area must be separated from living quarters.
- **Guest units:**
 - o A unit shall have adequate space for the number of guests who may occupy that unit.
 - o Operators must avoid crowding units with too many beds and / or poor arrangement of furniture.

Interior walls:

- o Walls shall be made of solid, soundproof construction, void of holes, separations and protruding nails.
- o All interiors walls shall be finished so they can be kept clean and free of stains and grease.

Floors:

- o Floors must have solid sub-floors. Coverings shall be void of tears and excessive wear. Tiles and linoleum to be clean and polished. Coverings and carpets to be clean and free of stains and burns.

Beds and linens:

- o Guests shall be provided with clean bedding, which has been laundered or dry-cleaned. Fresh, clean bedding and towelings shall be provided at frequent intervals. Bedding must be changed for each new occupant.

OTHER REQUIREMENTS

Approval is conditional upon facility complying with legislation and / or regulations under relevant Public Health Acts, Provincial Building Codes, Fire Codes and any other existing government regulations relating to the construction and operation of visitor accommodation that apply to the premise. Failure to comply with government legislation will result in loss of Star Quality rating.

ONE STAR

One-star properties provide basic, clean and well-maintained facilities. These properties provide limited services and amenities. To achieve a one-star rating, a property must meet the following criteria and quality requirements.

CRITERIA (MINIMUM REQUIREMENTS):

QUALITY SCORE:

The average quality score will be calculated for each of the three sections:

- Exterior / interior public areas, elevators, food & beverage outlets.
- Guest rooms and hallways.
- Bathrooms.

If the average quality scores are between 5.0 and 5.49, the property will receive a 5 Star rating. If the average quality scores for all three sections are above 5.50, the property will receive a 5+ Star rating.

QUALITY ASSESSMENT

The quality of several aspects of the facilities will be assessed by the rating advisor on a range from 1.00 to 5.75. These quality scores are averaged to determine the star level for the property. Consistent, superior average quality scores are required for a “plus” designation. An overall quality score below the criteria score could negatively impact the property’s star rating.
